

EXCERPT FROM UNIVERSITY TRAINING REGULATIONS

(Issued under Decision No. 5115/QĐ-DHQGHN dated December 25, 2014 of the Director of Hanoi National University)

Chapter I: GENERAL PROVISIONS Article 4. Teaching form, credits, credit hours

1. Teaching form

- a) Theory: students learn in class through live lectures from instructors or through online classes.
- b) Practice: students learn through practice, internships, experiments, exercises, discussions, reading and studying documents under the guidance of instructors.
- c) Self-study: students self-study and research according to the content plan assigned by the lecturer and are tested and evaluated.

2. Credits are a quantity that determines the amount of knowledge and skills students accumulate from a course in 15 credit hours.

3. Credit hours are a measure of a student's learning time, divided into three types according to teaching methods and determined as follows:

- a) One hour of theory credit is equal to 01 theory period; To receive 1 hour of theory credit, students must spend at least 2 periods of personal preparation.
- b) One practice credit hour is equal to 2 - 3 practice, experiment or discussion periods; 3 - 6 practice periods at the facility; 3 - 4 periods of writing essays, major assignments or projects, graduation thesis; To receive 1 hour of practice credit, students must spend at least 2 periods of personal preparation.
- c) One credit hour of compulsory self-study is equal to 3 periods of compulsory self-study and assessment.

Article 5. Modules

1. A module is a part of the knowledge of the training program; Each module has a volume of knowledge from 2 to 5 credits, taught in a full semester; Each course has its own code specified by VNU.

2. Types of modules

- a) Compulsory courses: students are required to accumulate.
- b) Conditional elective courses: students can choose according to the instructions of the training unit.
- c) Free elective courses: students choose according to their personal needs.
- d) Prerequisites of a module: students must complete them before studying that module.

D) Thesis and graduation project have a prescribed amount of knowledge from 5 to 10 credits specifically in the training program;

e) Internship and practical work (if any) is a mandatory module.

f) The prerequisite courses are foreign language courses, physical education, and national defense education

- security and supporting skills. The evaluation results of the conditional courses are not included in the semester's average score, the overall average score of the courses, and the cumulative average score, but are a condition for graduation.

3. Course outline

The course outline is compiled by the lecturer based on the learning outcomes of the course and approved by the head of the course management unit to provide to learners before teaching.

Article 8. Training funding

1. Training funding source

Funding to organize training in a major includes funding from the State budget, tuition fees and other legal funding sources.

b) Tuition fees

- Students studying any major must pay tuition (except for students in the following categories

subject to exemption according to current State regulations).

- Students pay tuition according to the number of credits registered for each semester at the training unit managing the field of study that the student is studying.

Chapter II: TRAINING PROGRAM Article 12. Output standards of the training program

1. Output standards are a mandatory requirement when developing training programs.

2. Output standards include:

- a) Standards of knowledge;
- b) Standards of professional skills and supporting skills;
- c) Standards of attitude;
- d) Jobs that learners can undertake; d) Ability to study and improve qualifications after graduation.

3. Output standards

for foreign language proficiency are specified as follows:

- a) Level 3 (according to the 6-level Foreign Language Competency Framework for Vietnam) for standard training programs, major - minor, dual major);
- b) Level 4 (according to the 6-level Foreign Language Competency Framework used for Vietnam) for high quality training programs, talent, international joint training programs awarded by VNU and other joint training programs. International cooperation by foreign partners and VNU Hanoi jointly awarding degrees;
- c) Level 5 (according to the 6-level Foreign Language Competency Framework for Vietnam) with an international standard training program;

Chapter III: TRAINING ORGANIZATION

Article 15. Semester

Each school year has two main semesters and one additional semester. Each main semester has 15 weeks of classes and 3 to 4 weeks of exams. Each additional semester has at least 5 weeks of classes and 1 week of exams,

Article 16. Course

1. Duration of the course

a) The design duration of the formal training course is 8 main semesters for bachelor's training, from 9 to 10 main semesters for engineer training, 10 main semesters for pharmacist training, 12 core semesters for physician training.

b) The design time of the on-the-job training course is 1 to 2 semesters longer than the corresponding regular training course.

c) The design time of the second diploma training course is prescribed by the head of the training unit for each student based on the amount of accumulated knowledge and reserved learning results, but not exceed the design time of the corresponding formal training program.

d) Maximum time to complete the course includes the course design time plus 4 main semesters for courses of 4 to less than 5 years; 6 core semesters for 5 to 6 year courses.

d) The course duration of two training programs concurrently does not exceed the maximum training time of the first training program.

2. Years of training

After each semester, based on the number of accumulated credits (excluding foreign language courses, free electives, physical education, national defense - security education and supplementary skills), students are ranked years of training are as follows:

Year of training	Mining program create standards	High quality training program, international standards	Talent training program
First year	Under 35 credits	Under 40 credits	Less than 45 credits
Second year	From 35 - 70 credits	From 40 – 80 credits	From 45 – 90 credits
The third year	From 71 – 105 credits	From 81 – 115 credits	From 91 – 130 credits
Fourth year	From 106 – 140 credits	From 116 – 155 credits	From 131 – 170 credits
Fifth year	From 141 – 175 credits		

Article 18. Time of teaching and learning activities

Teaching and learning hours of the training unit are from 07:00 to 21:00 every day, uniform throughout VNU. One class period is 50 minutes. The break between two classes is 10 minutes.

Article 19. Classroom organization

1. Course class

a) Course classes are organized for students in the same major in the same course and are stable from beginning to end of each course. In charge of the course class is the homeroom teacher. The course class is represented by the class staff.

b) Course classes are named according to the student's major and year of admission, with codes according to regulations of VNU.

c) Students are allowed to take a temporary leave of absence from school. When they return to continue studying, they will be placed in a course class appropriate to the amount of knowledge they have accumulated but keep the assigned student code. In case a student is placed in a course class with modules in the training program that are different from the training program the student was enrolled in before temporarily leaving school, the Head of the training unit shall decide to allow Students are reserved or must take additional equivalent courses.

2. Part class

a) Module classes are organized for students studying the same module in the same semester. The training unit in charge of the module is responsible for establishing and managing the module class.

b) The section class name is called by the section code. A module has many module classes, then

the name of each class will be the module class name and the module class number will be added.

c) The head of the training unit stipulates the minimum and maximum number of students for each class. The class will not be held if the number of registered students is less than the specified minimum number of students; At that time, students must register for another course if the minimum study load for each semester is not met.

Article 20. Course registration

1. Number of credits registered for each semester (excluding foreign language courses, physical education, defense and security education, supplementary skills, improving scores, and free electives).

a) For the main semester, excluding the final semester:

- Standard training program: Minimum 14 credits
- High quality training program: Minimum 16 credits
- International standard training program: Minimum 16 credits
- Talent training program: Minimum 18 credits
- Standard training program in the form of work-study and remaining training programs: prescribed by the head of the training unit.

In case a student wishes to register for less than the minimum number of credits in a semester, they must obtain the consent of the Head of the training unit.

b) For extra semesters: The head of the training unit stipulates.

2. Register for the course

a) The organization of registration for modules in the training program is prescribed by the Head of the training unit. Students can register to study and take exams for modules in the training program taught by any training unit of VNU. The results of these modules are converted and recognized in all training units in VNU.

b) Training units are responsible for notifying in writing and on the unit's website the teaching plan and timetable of courses at least 2 weeks before the registration time for students. Know and create favorable conditions for students from other units to register for courses; Transfer course registration data and student course score data to the student management training unit immediately after the end of the registration period and the end of exam marking.

c) All training units throughout VNU use uniform training and learner management software and databases.

d) When registering for elective courses, students must clearly identify conditional elective courses or free elective courses. Free elective courses with a grade of D or higher are recorded on the transcript accompanying the diploma, and are not included in the semester average and cumulative average.

3. Course registration time

a) Before the start of each semester, depending on their ability and learning conditions, students consult with their academic advisor to register for the courses they plan to study in that semester.

b) No later than 1 month before the start of each semester, students must complete registration for courses.

c) In the first 2 weeks of the main semester or in the first 1 week of the supplementary semester, students are allowed to register for the courses they want to take extra or register to change to another class.

4. Register again

a) For mandatory courses, if a student receives an F grade, the student must re-register for that

course.

b) For a conditional elective course, if the student receives an F grade, the student must register to retake that course or register to take another elective course in the same knowledge block instead.

5. Sign up for classes to improve your scores

For courses with grades D, D+, students can register to retake that course or change to another course (if it is a conditional elective course) to improve the cumulative average score. Old course scores will be canceled when re-registration to improve scores is accepted and will be replaced with course scores to improve scores.

6. Reserved courses and equivalent courses

The modules have the same content and duration for students transferring inside and outside VNU, studying for a second degree, studying two training programs at the same time, and studying at the university.

Accumulated foreign studies will be recognized. For other modules, based on the training program and training content, the Head of the training unit decides to reserve or equivalent. Scores and credits of reserved or equivalent courses are recognized and converted to records before starting to implement the study plan according to the new training program.

7. Course registration results

The training unit will notify the student of the course registration results when the student has completed the registration to ensure the minimum study load of the semester specified in Clause 1, this Article.

Article 21. Withdrawal of registered courses

1. Tuition reduction applies to all cases

- a) According to students' needs and options;
- b) After registering for the course, the student's academic grade is determined and must reduce the course within the prescribed load limit;
- c) The overall average score for the semester is less than 2.00 but is not subject to being forced to drop out of school, students are allowed to register for no more than 18 credits in each main semester.

2. Withdrawal of courses is only accepted within 2 weeks from the beginning of the main semester, 1 week from the beginning of the supplementary semester and the tuition fee will be refunded. Beyond the above deadline, the course remains intact on the registration form. If the student does not take the course, he or she will receive an F grade and the tuition fee will not be refunded.

3. Conditions for withdrawing registered courses

- a) Students must write their own application to the training department;
- b) Accepted by the Head of the training unit;
- c) Do not violate the provisions of Clause 1, Article 20 of these Regulations.

Students are only allowed to not attend class for the withdrawn course after the lecturer in charge of the course receives a notice from the training department.

Article 22. Subjects exempted or temporarily postponed from studying national defense - security education and physical education modules

1. Subjects are exempted or temporarily postponed from studying the national defense and security education module

- a) Subjects are exempted from studying the entire module

- Students with a diploma from an academy, military or police officer school;
- Students already have a certificate of defense and security education;
- Students are foreigners.

b) Subjects are exempted from studying or taking exams for the contents they have learned

Students who transfer training institutions are exempt from studying the contents they have learned but must have scores to evaluate the learning results of the corresponding contents.

c) Subjects are exempted from learning military skills practice content

- Students who are monks of different religions;
- Students with injuries, congenital disabilities, or chronic diseases that limit motor function with a certificate from a district hospital or equivalent or higher;
- Students who have completed military service and have a discharge certificate issued by a competent military unit.

d) Subjects whose studies are postponed

- Students suffer from illness, accident, natural disaster, or fire;
- Female students who are pregnant or on maternity leave according to current regulations;

If the above subjects are approved by the Head of the training unit to postpone their studies, after the expiration of the suspension period, they must continue to study the missing content according to regulations.

2. Exemption or postponement of physical education courses

a) Subjects are exempted from studying the entire module

Students have completed the physical education module appropriate to their training level.

b) Subjects are exempted from learning practical content

Students with injuries or birth defects that limit motor function (with a certificate from a district hospital or equivalent or higher) are exempt from studying practical content or can choose specific content. for people with disabilities.

c) Subjects whose studies are temporarily postponed

- Students suffer from illness, accident, natural disaster, or fire;
- Female students who are pregnant or on maternity leave according to current regulations.

The head of the training unit shall consider and decide to grant the subjects a temporary deferral of study. At the end of the suspension period, students continue to study the missing content in the prescribed course.

Article 24. Study two training programs at the same time

1. Students studying at VNU's training units in the form of formal training may register for a second training program if they meet the following conditions:

- a) The main field of study of the second training program must be different from the main field of study of the first training program;
- b) Have studied at least two semesters of the first training program;
- c) The overall average score of all modules from the beginning of the course to the time of registration for the second training program is 2.00 or higher;
- d) Students have an application to study a second training program and pay tuition according to the regulations of the training unit.

4. During the process of studying two training programs at the same time, students only need to accumulate the common, equivalent modules once and must accumulate all the remaining modules of the two training programs. Students accumulate enough credits as required by both training programs and upon graduation are awarded two degrees.

5. The first and second training program organizers update students' learning results after each semester. Students must stop studying the second training program in the next semester if at the end of the semester their academic performance is classified as weak in either training program.

6. Students are only considered to graduate from the second training program if they have been recognized as graduating from the first training program and do not exceed the maximum training time of the first training program.

Article 25. Transfer of students between training programs

1. Transfer students studying talent training programs with international standards and high quality to studying regular standard training programs of the corresponding field of study.

a) Students studying talent training programs with international standards and high quality who have not been forced to drop out of school must transfer to the regular standard training program of the corresponding field of study if they violate one of the following cases:

- Have an advanced and additional module with an F grade;
- Have an overall average score of less than 2.50 for all modules up to the time of review;
- Being disciplined during the study period from a reprimand or higher.

b) When switching to the regular standard training program, the advanced and additional courses are converted as follows:

- For advanced courses, course scores are maintained, credits are converted according to the standard training program;
- For additional courses, the Head of the training unit shall consider allowing it to be replaced by another course in the standard training program or confirm that it is a freely chosen course.

2. Adding students studying regular standard training programs to studying talent training programs with international standards and high quality.

a) Based on the announced training targets, the Head of the training unit will organize the admission of additional students to study the talented, international standard, high quality training program if the following conditions are met:

- Be a second or third year student;
- The field of study is suitable for a field of study with a talent training program of international standards.

High Quality;

- The overall average score of the modules up to the time of consideration is 3.20 or higher and the English level is at level 3 or higher;
- The scores of the modules corresponding to the modules in the talent training program, international standards, high quality must reach B or higher;
- Ethical character, good sense of organization and discipline.

b) Regarding the conversion of course scores in the standard training program to corresponding advanced course scores, the Head of the training unit shall consider recognizing equivalence or requesting additional knowledge.

Chapter IV: STUDENTS' SCIENTIFIC RESEARCH ACTIVITIES Article 29.

Bonus points for students' scientific research achievements

1. Bonus points for the scientific research projects of winning students are added to the semester average score and cumulative average score to serve as a basis for consideration of scholarships and transfer to graduate school. Education and other benefits are not used to classify academic performance or determine graduation rank.

2. Bonus point levels are specified as follows:

a) Won an award at the VNU level or at the Ministry of Education and Training level:

First prize: 0.20 points

Second prize: 0.15 points

Third prize: 0.10 points

Consolation prize: 0.07 points

b) Won the training unit level award:

First prize: 0.10 points

Second prize: 0.07 points

Third prize: 0.05 points

If scientific research is carried out by many students, the bonus points will be divided equally among the number of participating students.

3. If a student wins multiple scientific research awards at all levels, bonus points will only be added once for the highest award level.

4. Scientific research work is counted as a yearbook or essay; is replaced by a conditional elective course in the field of knowledge that will be accumulated into the overall learning results of the semester; are taken into account when considering scholarships, postgraduate study and other benefits, if the following conditions are met:

a) Scored by the Faculty Council (converted to a 10-point scale) and decided on which courses to replace in the major's training program; If scientific research is carried out by many students, the students will enjoy the same benefits;

b) Students with aspirations.

Chapter VI: OBLIGATIONS AND RIGHTS OF STUDENTS

Article 32. Obligations of students

1. Fulfill the obligations of citizens according to the provisions of law. Foreign students must comply with Vietnamese law, respect Vietnamese customs and practices;

2. Strictly implement the rules and regulations of VNU and the training unit on student affairs;

3. Things students cannot do: use fake diplomas and certificates; violating exam room discipline, asking for scores; study, take exams, practice for others or ask others to study, take exams, practice for them; Copying documents without citing them or asking them to do essays, theses, graduation projects, or scientific research projects for you; carry out and participate in illegal activities.

Students who are dishonest and commit fraud in scientific research, writing essays, theses, and graduation projects will be disciplined from one-year suspension to expulsion.

4. Students are responsible for strictly following the regulations on exam room discipline.

Violations will be subject to disciplinary action at the following levels:

a) Reprimand: applied to students who make a mistake once by looking at someone else's paper, exchanging papers, or discussing papers during exam time. Students who are reprimanded when taking an exam will have 25% of the points earned on that module's exam deducted;

b) Warning: applied to students who commit one of the following errors:

- Has been reprimanded once but continues to violate regulations during the exam for that module;

- Exchange assignments and scratch papers with others;

- Copy other people's work. Exams that have the same conclusion will be handled the same, except in cases where the person being handled has enough evidence to prove that he or she was actually cheated, the head of the training unit can consider reducing the disciplinary level from The law warns down to a reprimand.

Students who are warned when taking an exam will have 50% of their score deducted for that module's exam.

c) Exam suspension: applies to students who commit one of the following errors:

- Has been warned once but continues to violate regulations during the exam for that module;
- After removing the exam questions, you are found carrying unauthorized items;
- Send exam questions out or receive solutions from outside into the exam room.

Students who are suspended from the exam will receive a score of zero (0) on the exam for that module and must leave the exam room immediately after the decision to suspend the exam is made.

The above disciplinary forms are recorded by the exam invigilator, collect evidence and clearly state the disciplinary form.

d) Students who take the test for them or ask someone to take the test for them will be disciplined at the level of suspension for 1 year for the first violation and forced expulsion for the second violation.

Article 33. Students' rights

1. Fully enjoy the current regimes and policies of the Party and State as well as the rules and regulations of VNU and the training unit;
2. Students are allowed to drop out of school due to subjective personal reasons. In this case, the student must repay the training unit all training costs from the state budget during the period of study;
3. Students are allowed to temporarily leave school and reserve their results in the following cases:
 - a) Being mobilized into the armed forces. Temporary absence from school does not count toward the maximum time allowed to study;
 - b) Being sick or having an accident requiring long-term treatment with a certificate from a medical facility. Temporary absence from school does not count toward the maximum time allowed to study;
 - c) For personal subjective reasons. In this case, the student must study at least one semester at the training unit, must not be forced to drop out, and must achieve a cumulative average of no less than 2.00. Temporary absences from school due to personal needs are counted towards the maximum time allowed to study.

If students temporarily leave school, if they want to continue studying, they must submit a request to the Head of the training unit for resolution at least 2 weeks before the end of the temporary leave period.

Chapter VII: TESTS, EXAMS AND ASSESSMENT OF LEARNING RESULTS

Article 34. Evaluation of course results

1. Course assessment scores (called course scores) include: department assessment scores (average of regular and mid-term assessment test scores) and final exam score, in which the final exam score is mandatory and has a weight of no less than 60% of the module's score.
2. Regular assessment is the activity of lecturers using different assessment techniques in teaching forms to check the mastery of knowledge and practice skills identified in the objectives of the course. module, and thereby receive feedback to help lecturers and students adjust teaching and learning styles, and change teaching and learning methods accordingly.
3. Mid-term assessment is an activity of the lecturer at the times specified in the course syllabus, to assess the level of students achieving the course objectives at the corresponding stage.
4. The end-of-course exam can be taken in the form of essay, multiple choice, oral, large

exercises or a combination of the above forms.

5. The format of the module assessment test, the weight of the module assessment test scores and the final exam score of the module are specified in the module syllabus.

Article 35. Organizing assessment and end-of-course exams

1. The examination, evaluation and grading of each module is directly performed by the lecturer of the module class and the results are notified to students, no later than 7 working days after the test date or submission date. essays, major assignments.

Students who do not have departmental assessment scores due to a legitimate reason confirmed by a competent authority and approved by the Dean of a faculty affiliated with VNU (or Dean of a faculty belonging to a member university), Lecturers organize additional assessment tests for students.

Students can only take the final exam if they have a department evaluation score greater than 0, pay the full tuition fee and meet the end-of-course conditions prescribed by the Head of the unit in charge of the module.

2. The training unit organizes the exam at the end of the module. For a course with multiple classes studying in the same semester, the final exam will be held at the same time, with the same exam questions.

At the end of each semester, the training unit organizes a main exam and, if possible, an additional exam. For each module, students can only take the exam once in the same exam. The supplementary exam is only for students who have not taken the main exam for a legitimate reason confirmed by a competent authority and permitted by the Head of the training unit.

3. The main exam schedule must be announced at least 1 month in advance, and the supplementary exam schedule must be announced at least 1 week in advance. During the exam, each module is tested separately, and multiple modules are not arranged in the same exam session for a student.

4. At least one day after finishing teaching the module, the lecturer sends the list of students who can and cannot take the final exam (with reasons clearly stated) to the Training Department. Based on the lecturer's request and other obligations of the student, the Training Department prepares a list of students eligible to take the exam and assigns exam rooms.

5. The head of the training unit shall specify the exam proctoring and marking process.

6. Exams and certificates for supplementary skills courses are held at the unit in charge of supplementary skills training.

7. Exam marking and announcement of course scores shall be completed no later than 15 working days from the date of the final exam. The head of the training unit regulates the implementation process and management of department scores, final exam scores and course scores.

8. Exam questions, answers and all final exams after grading must be preserved and stored for at least two years from the exam date. The department transcript, final exam list and course score summary (electronic file) are permanent archives of the training unit.

9. Students who are absent from the final exam without a valid reason must receive a score of 0 (zero). Students who are absent for a legitimate reason may take an additional exam as prescribed in Clause 2, this Article or have their component points reserved and be allowed to take the final exam in the following semester.

Article 38. How to calculate department and module scores

1. Departmental assessment scores and final exam scores are graded on a 10-point scale (from 0 to 10), with odd to one decimal place.

2. The course score is the sum of the department assessment score and the final exam score after calculating the weights specified in the course outline and rounded to one decimal place, then converted to letter grades.

a) Passing category:

9.0 – 10.0 corresponds to A+

8.5 – 8.9 corresponds to A

8.0 – 8.4 corresponds to B+

7.0 – 7.9 corresponds to B

6.5 – 6.9 corresponds to C+

5.5 – 6.4 corresponds to C

5.0 – 5.4 corresponds to D+

4.0 – 4.9 corresponds to D

b) Unsatisfactory grade: Below 4.0 corresponds to F

c) For courses that do not have enough basis to be included in calculating the semester's average score, the following symbols can be used when assigning evaluation levels:

I - Not enough points to evaluate the department

X - There are no final exam results yet

d) For modules that are allowed to transfer grades by the Head of the training unit or are evaluated at the beginning of the semester (if any), when grading, use the symbol R written after the module grade.

3. The grading of points A+, A, B+, B, C+, C, D+, D, F is applied to the following cases:

a) Modules for which students have enough points for department evaluation. In case a student skips class, skips a test or skips the exam without a reason, no points will be given;

b) Converting from assessment level I, after having the results of departmental assessment scores that students were previously allowed to owe by lecturers;

c) Convert from assessment level X, after receiving the results of the end-of-course exam.

4. The grading at F level, in addition to the cases as specified in Clause 2, this Article, also applies to cases where students violate exam rules and are decided to receive an F grade.

5. The classification according to assessment level I is applied to the following cases:

a) During the study period or during the final exam period, a student who is sick or has an accident cannot take the test or exam, with permission from the Head of the training unit;

b) Students do not attend departmental tests or exams for objective reasons and are approved by the Head of the training unit.

Except for special cases prescribed by the Head of the training unit, in the next semester, students receiving assessment level I must pay off the outstanding department test content in order to have their grade transferred. In cases where students have not yet paid their debts and have not transferred their grades but are not forced to drop out of school, they can still continue studying in the following semesters.

6. Grading according to rating level x is applied to courses for which the Training Department has not received a student learning outcome report from the lecturer in charge of the course.

Article 39. Evaluation of learning results

Student learning outcomes are evaluated after each major semester according to the following criteria:

1. The amount of learning knowledge is the total number of credits of the courses (excluding free elective courses) that the student has registered to study during the semester.

2. The amount of accumulated knowledge is the total number of credits of the courses that have been evaluated as passable, calculated from the beginning of the course.

3. The semester's average score is the credit-weighted average score of the courses that the student registers to study in that semester (including courses evaluated as pass and fail).

4. The overall average score of the courses is the credit-weighted average score of the courses that the student registered to study from the beginning of the course until the time of review (including courses assessed as passable). and failed).
5. Cumulative average score is the credit-weighted average score of the courses that have been evaluated as pass that the student has accumulated, calculated from the beginning of the course until the time of review.

Article 40. How to calculate the average score

1. To calculate the semester average, the overall average score of the courses and the cumulative average score, the letter grade of each course is converted into a score as follows:

- A+ corresponds to 4.0
- A corresponding to 3.7
- B+ corresponds to 3.5
- B corresponds to 3.0
- C+ corresponds to 2.5
- C corresponds to 2.0
- D+ corresponds to 1.5
- D corresponds to 1.0
- F corresponds to 0

2. The average score for the semester, the average score for the courses and the cumulative average score are calculated according to the following formula and rounded to 2 decimal places:

Evaluation results of foreign language courses, national defense and security education, physical education, and supplementary skills are not included in the semester's average score, the average score of the modules, and the cumulative average score. .

The semester's average score is used to consider academic warnings, expulsions, temporary absences, academic rankings, scholarships, and rewards after each semester.

The overall average score of the courses is used to register for the second training program at the same time, converting students between training programs.

Cumulative GPA is used for academic warning, expulsion consideration, and graduation ranking.

Article 41. Academic handling

After each main semester, the training unit carries out academic processing. The academic results of the extra semester are calculated into the academic results of the main semester immediately preceding the extra semester.

1. Academic warning

Training units issue academic warnings each semester for students with the following academic results:

- a) The cumulative average score is less than 1.20 for first-year students, less than 1.40 for second-year students, less than 1.60 for third-year students or less than 1.80 for third-year students. students in the following years and at the end of the course;
- b) The average semester score is less than 0.80 for the first semester of the course, less than 1.00 for the following semesters;
- c) The total number of outstanding credits of the courses with an F grade from the beginning of the course to the time of review is more than 24 credits.

Depending on the characteristics of each training unit, the Head of the unit shall prescribe the application of one or two of the three conditions mentioned above to warn students' academic results and stipulate the number of academic warnings, but not more than 2 times in a row.

2. Forced to drop out of school

After each semester, students are forced to drop out of school if they fall into one of the following cases:

- a) Having a number of warnings for learning results exceeding the limit as prescribed by the Head of the training unit;
- b) Exceeding the maximum allowed study time specified in Clause 1, Article 16 of these Regulations;
- c) Be disciplined for the second time for taking the exam for you or asking someone to take the exam for you according to the provisions of section d, clause 4, Article 32 of these Regulations or be disciplined to the extent of having your name removed from the school's student list;

No later than 1 month after the student has decided to withdraw from school, the training unit must notify the return to the locality where the student has permanent residence.

- d) After the temporary leave of absence expires, students do not have an application to return to study as prescribed in Clause 3, Article 33 of these Regulations.

Article 42. Classification of academic performance

1. The type of academic performance is the basis for determining the amount of study a student can register for in the next semester. In case the student's academic performance is determined at the time after the student has registered for the course, the student must withdraw the course within the prescribed load limit.

2. After each semester, based on the semester's average score, students' academic performance is classified into the following categories:

- a) Excellent: Average score for the semester is from 3.60 to 4.00
- b) Good: Average score for the semester ranges from 3.20 to 3.59
- c) Decent: Average score for the semester ranges from 2.50 to 3.19
- d) Average: Average score for the semester ranges from 2.00 to 2.49
- e) Weak: The average score for the semester is less than 2.00 but is not subject to being forced to drop out of school.

Chapter II: RIGHTS AND OBLIGATIONS OF STUDENTS

Article 4. Student rights

1. Be admitted to the right major, be issued a student card, and be given a separate information account to serve learning activities.
2. Enjoy full training rights according to the current University Training Regulations at VNU.
3. Be able to register to study abroad according to current regulations, participate in international student exchange activities within the framework of international cooperation programs or agreements of the State, VNU or unit; can register to study the second training program, other programs and transfer studies at higher levels according to current regulations of the State and VNU.
